#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments with respect to claims 42-47 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 42-47 are rejected under 35 U.S.C. 102(b) as being anticipate by Lam et al (US Patent No. 5,706,036).

In considering claim 42, Lam et al discloses all the claimed subject matter, note 1) the claimed counting a number of pixels or lines is met by the counter 110 (Figs. 1 and 5, col. 2, line 51 to col. 3, line 37), 2) the claimed determining that the polarity of the sync pulse is the same as a previously determined polarity, if the sync pulse is detected before the counted number of pixels or lines is equivalent to a certain value is met by the polarity detector 115 which determining the polarity of the input pulse is substantially similar 515 to the polarity of a previous pulse (Fig. 5, col. 4, lines 15-56), and 3) the claimed determining that the polarity of the sync pulse is the opposite of the previously determined polarity, if the counted number of pixels or lines is equivalent to a certain value is met by is met by the polarity detector 115 which determining the polarity of the

Art Unit: 2622

input pulse is substantially similar 515 to the polarity of a previous pulse (Fig. 5, col. 4, line 15 to col. 5, line 49).

In considering claim 43, the claimed wherein counting a number of pixels comprises: loading a counter with the certain value, and decrementing contents of the counter is met by the counter 110 which counts each pulse received from the validator 105 to a predetermined number (Figs. 1 and 5, col. 2, line 51 to col. 3, line 37).

In considering claim 44, the claimed further comprising: determining a certain number, wherein determining the certain number further comprises: detecting a first pulse edge; and incrementing contents of the counter until detecting a second pulse edge is met by the validator 105 (Figs. 1 and 5, col. 2, line 38 to col. 3, line 37).

Claims 45-47 are rejected for the same as discussed in claims 42-44, respectively.

### ***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
